### SAFETY PRECAUTIONS

The following symbols are used in Onan manuals to alert users to the potentially dangerous conditions relating to maintenance of the equipment and replacement of parts. Please read and observe.

This symbol warns of immediate hazards which will result in severe personal injury or death.

**AWARNING** 

This symbol refers to a hazard or unsafe practice which can result

in severe personal injury or death.

This symbol refers to a hazard or ACAUTION | unsafe practice which can result in personal injury or product or property damage.

### MODEL IDENTIFICATION

To avoid errors or delay in filling your parts order, always give the MODEL, SPEC NO., and SERIAL NO. from the Onan nameplate.

For handy reference, insert your nameplate information in the spaces below:

MODEL AND SPEC NO.

SERIAL NO.

## PRODUCT SAFETY PRECAUTIONS

AWARNING

Contact with USED ENGINE OILS has been identified by a United States federal agency and some USA state agencies as causing CANCER or REPRODUCTIVE TOXICITY. When checking or changing engine oils take all necessary precautions not to ingest, breathe the fumes or contact the used oil.

# AWARNING

Contact with ASBESTOS has been identified by a United States federal agency and some USA state agencies as causing CANCER or REPRODUCTIVE TOXICITY, When handling engine gaskets take all necessary precautions not to ingest, breathe or contact the dust from the gaskets! Use adequate ventilation and wear protective gloves, masks and clothing!

# AWARNING

Contact with BENZINE and LEAD, found in gasoline, fuel additives and solvents has been identified by a United States federal agency and some USA agencies as causing CANCER or REPRODUCTIVE TOXICITY. When checking, draining or adding gasoline and fuel additives, or using solvents take all necessary precautions not to ingest, breathe the fumes, or contact the liquids. Use adequate ventilation and wear protective gloves, masks and clothing!

927-0404 (APRIL 1981)

#### INTRODUCTION

This catalog applies to the industrial CCKB Engines listed below and factory installed options. Parts are arranged in groups of related items. Each illustrated part is identified by a reference number corresponding to the same reference number in the parts list for that group. Parts illustrations are typical. Using the MODEL and SPEC NO. from the engine nameplate, select the Parts Key No. (1,2,etc., in the last column) that applies to your Engine Model and Spec No. This Parts Key No. represents parts that differ between models. Unless otherwise mentioned in the description, parts are interchangeable between models. Right and left engine sides are determined by facing the blower end (front) of the engine.

#### ENGINE DATA TABLE

MODEL AND SPEC NO.	PARTS KEY NO.
CCKB-S*	1
£CCKB-MS/*	2

\* - The Specification Letter Advances (A to B,B to C, etc.) with manufacturing changes.

 $\epsilon$  - New model designations shown, begin during 1969. Previous designations used a V in the model to designate Vacu-Flo cooling.

# STANDARD ENGINE PARTS SECTION

This section contains the engine parts used on standard engines listed in the Engine Data table.

927-0404 (APRIL 1981)
